

CDC's Communication Resource Center

Welcome health department partners!

CDC is excited to offer our state, local, and territorial (STLT) partners online access to free, high quality, customizable tools and resources designed to support and enhance your communication efforts.

Materials are available via the [Communications Resources Center \(CRC\)](#) – a password-protected, non public SharePoint site. For more information regarding secure access visit https://esp.cdc.gov/sites/MISO/Services/IAM/CDC_JOIN/default.aspx, or contact the CDC JOIN team at CDCJOIN@cdc.gov.

Register for Access:

- Visit STLT Public Health Professionals Gateway at <http://www.cdc.gov/stltpublichealth/collab-space/index.html> to fill out the account request form. Provide your contact information, your job title, and the name of your organization.
- Once you submit the request, you will receive an e-mail containing your user ID and a temporary password that you will use to complete the registration process at the CDC JOIN login page.

Step 1: Enter your user name, temporary password, and accept the conditions of use

Step 2: Create a new password to replace the temporary password

Step 3: Send an e-mail to WNX4@cdc.gov indicating you have completed registration

U.S. Department of Health and Human Services
Centers for Disease Control and Prevention

podcasts

CDC produces audio and video podcasts on a wide range of topics and posts them on the Podcasts at CDC site. Some podcasts target health professionals but many target the general public. All CDC podcasts are public domain.

communications

CDC cleared communication products intended for re-distribution by local health departments. The products include and are reserved to add individual state or local department identification. Topics and products will be added on a continuous basis.

rights-free photography

Access to hundreds of profession, royalty-free photographs from the Public Health image Library (PHIL) oriented to public health communicator needs. Topics include: Disease and disease agents, every day activities, health behaviors, public health in action.

design templates

A coordinated suite of professionally designed templates. Templates are provided in both Adobe InDesign and Microsoft Office software. Templates for posters, factsheets, power points presentations and scientific posters are available.

matte articles

CDC offers matte articles on relevant public health topics available for health departments to share.

medical illustrations

Access to free illustrations of medical/scientific concepts and processes including: anatomy, fetal development, routes of disease exposure and progression.

videos

High definition, broadcast-quality video are available for free download and use at the CDC-TV health matters website.
